COMPANY CULTURE

企业文化

使命 / MISSION

追求全体安嘉人物心双幸福的同时，用智能焊接装备，为世界连接安全与美好

While pursuing both wealth and psychological happiness of all Agera people, use intelligent welding equipment to connect safety and beautiful life to the world.

愿景 / VISION

成为具有核心技术、受人尊重的智能焊接装备行业标杆企业

To become a respected benchmark enterprise in the intelligent welding equipment industry with core technologies.

价值观 / VALUES

正直、责任、精进、利他、知行合一

Integrity, Responsibility, Diligence, Altruism, Unity of Knowledge and Action.

经营理念 / BUSINESS PHILOSOPHY

以客户为中心，以奋斗者为本，持续创新

Customer-centered, striver-oriented, continuous innovation.

AGERA

AUTOMATION EQUIPMENT COMPANY PROFILE

公司简介

苏州安嘉自动化设备有限公司是专业的电阻焊及自动化设备研制企业，国家高新技术企业、江苏省专精特新企业、江苏省民营科技企业，公司通过ISO9001质量管理体系认证和CE认证。

安嘉拥有优秀的研发、生产和客户服务团队，拥有20多年焊接技术沉淀、累计申请成功50多项发明和实用新型专利，服务3000+客户经验、30000+焊接工件案例，成套的自动化生产工艺解决方案。

主要产品有全系列电阻焊接设备，以及各种非标定制型自动点凸焊机、机器人自动焊接工作站、焊接生产线等，广泛应用于汽车制造、电子电气、家用电器、五金工具、机械制造等行业。我们为国内众多知名企业提供了设备和服务，同时出口欧洲、东南亚、中东、南美、北美等国家。

安嘉追求正确的为人之道、经营之道，注重产品的研发与服务，不断吸纳和培养专业人才来提升公司的技术创新能力、经营管理能力！我们以成套的设备、工艺解决方案和专业的技术服务，为各行业客户创造价值，努力为工业自动化的发展做贡献！

Suzhou Agera Automation Equipment Co., Ltd. is a professional resistance welding and automation equipment production and development enterprise. It is a national high-tech enterprise, a professional, refined, distinctive, novel, and private technology enterprise in Jiangsu Province. The company has passed ISO9001 quality management system certification and CE certification.

Agera has an excellent R&D, production and sales service team, with more than 20 years of welding technology accumulation, more than 50 successful applications for invention and utility model patents, 3000+ customer experience, 30000+ welding workpiece cases, and full set of automated production process solutions.

The main products include medium frequency inverter spot welding machines, capacitor energy storage spot welding machines, seam welding machines, diffusion welding machines, suspended spot welding machines, flash butt welding machines, resistance butt welding machines, and various non-standard Customized automatic spot welding machines, robot automatic welding workstations, welding production lines, etc. are widely used in automobile manufacturing, electronic and electrical appliances, household appliances, hardware tools, machinery manufacturing and other industries. We have provided equipment and services to many well-known domestic companies. Our products are also exported to Europe, Southeast Asia, the Middle East, South America, North America and other countries.

Agera pursues the correct way of being a person and doing business, focusing on product research and development and services, and constantly absorbing and cultivating professional talents to enhance the company's technological innovation capabilities and business management capabilities! We create value for customers in various industries with complete sets of equipment, process solutions and professional technical services, and strive to contribute to the development of industrial automation!

OUR SERVICE
我们的服务

安嘉为完善客户服务质量，精心打造一直专业贴心的售后服务团队。耐心听取客户诉求并及时作出相应解决方案，是每个安嘉人的职责。灵活调度和迅速解决问题是我们与客户密切合作的基础。不断改善产品体系和服务流程，并超出客户期望是我们的服务宗旨！

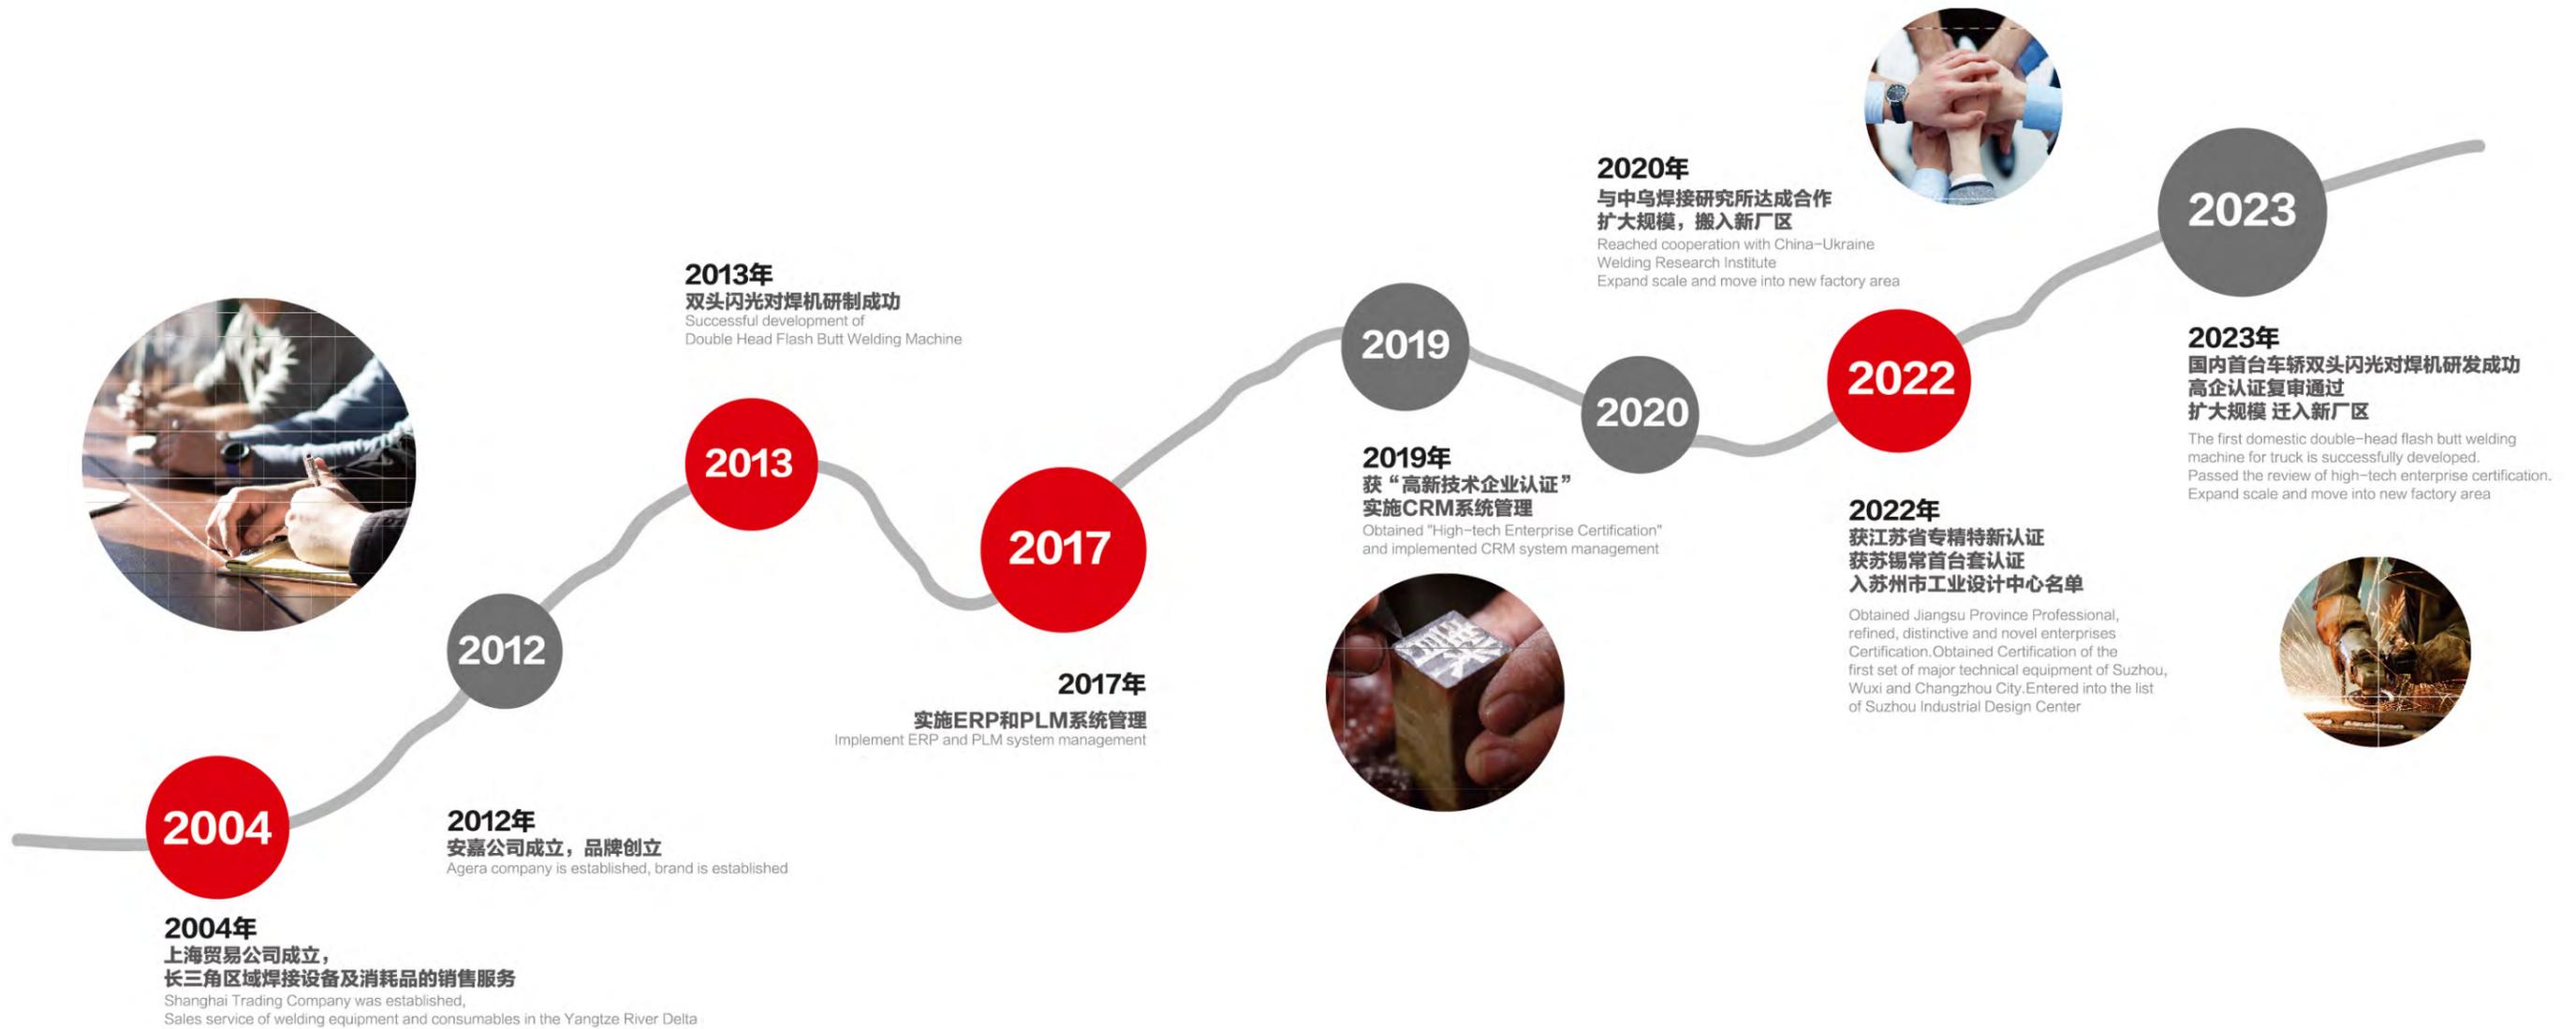

In order to improve customer service quality, AGERA has carefully built a professional and considerate after-sales service team. It is the responsibility of every AGERA person to listen to customers' demands patiently and make corresponding solutions in time. Flexible scheduling and rapid problem solving are the basis of our close cooperation with customers. Continuously improve the product system and service process, and exceed customer expectations is our service purpose!

客户至上 贴心服务
Customer first, considerate service
您的满意，是我们不懈的追求
Your satisfaction is our unremitting pursuit

SCOPE OF APPLICATION

应用范围

- 普通低碳钢板、不锈钢板、镀锌板、铝板点焊及多点凸焊；
Spot welding and multi-point welding for ordinary low-carbon steel plate, stainless steel plate, galvanized plate and aluminum plate;
- 铜线和铜板的点焊连接、银点和铜片的凸焊、精细电子零件的焊接；
Spot welding for copper wire and copper plate, projection welding for silver contact and copper sheet, welding for precision electronic parts;
- 高强度钢、铜合金、铝合金及异种金属焊接；
Welding for high-strength steel, copper alloy, aluminum alloy and dissimilar metals;
- 线材的多点凸焊，电阻钎焊；
Multi-point and projection welding and resistance brazing for wire rod;
- 汽车行业高强度钢与螺母、螺栓的凸焊；
Projection welding for high-strength steel, nuts and bolts in automobile industry;
- 对高稳定性、高精度控制要求的场合等。
Applications with requirements on higher stability and high precision control, etc.

PRODUCT FEATURES

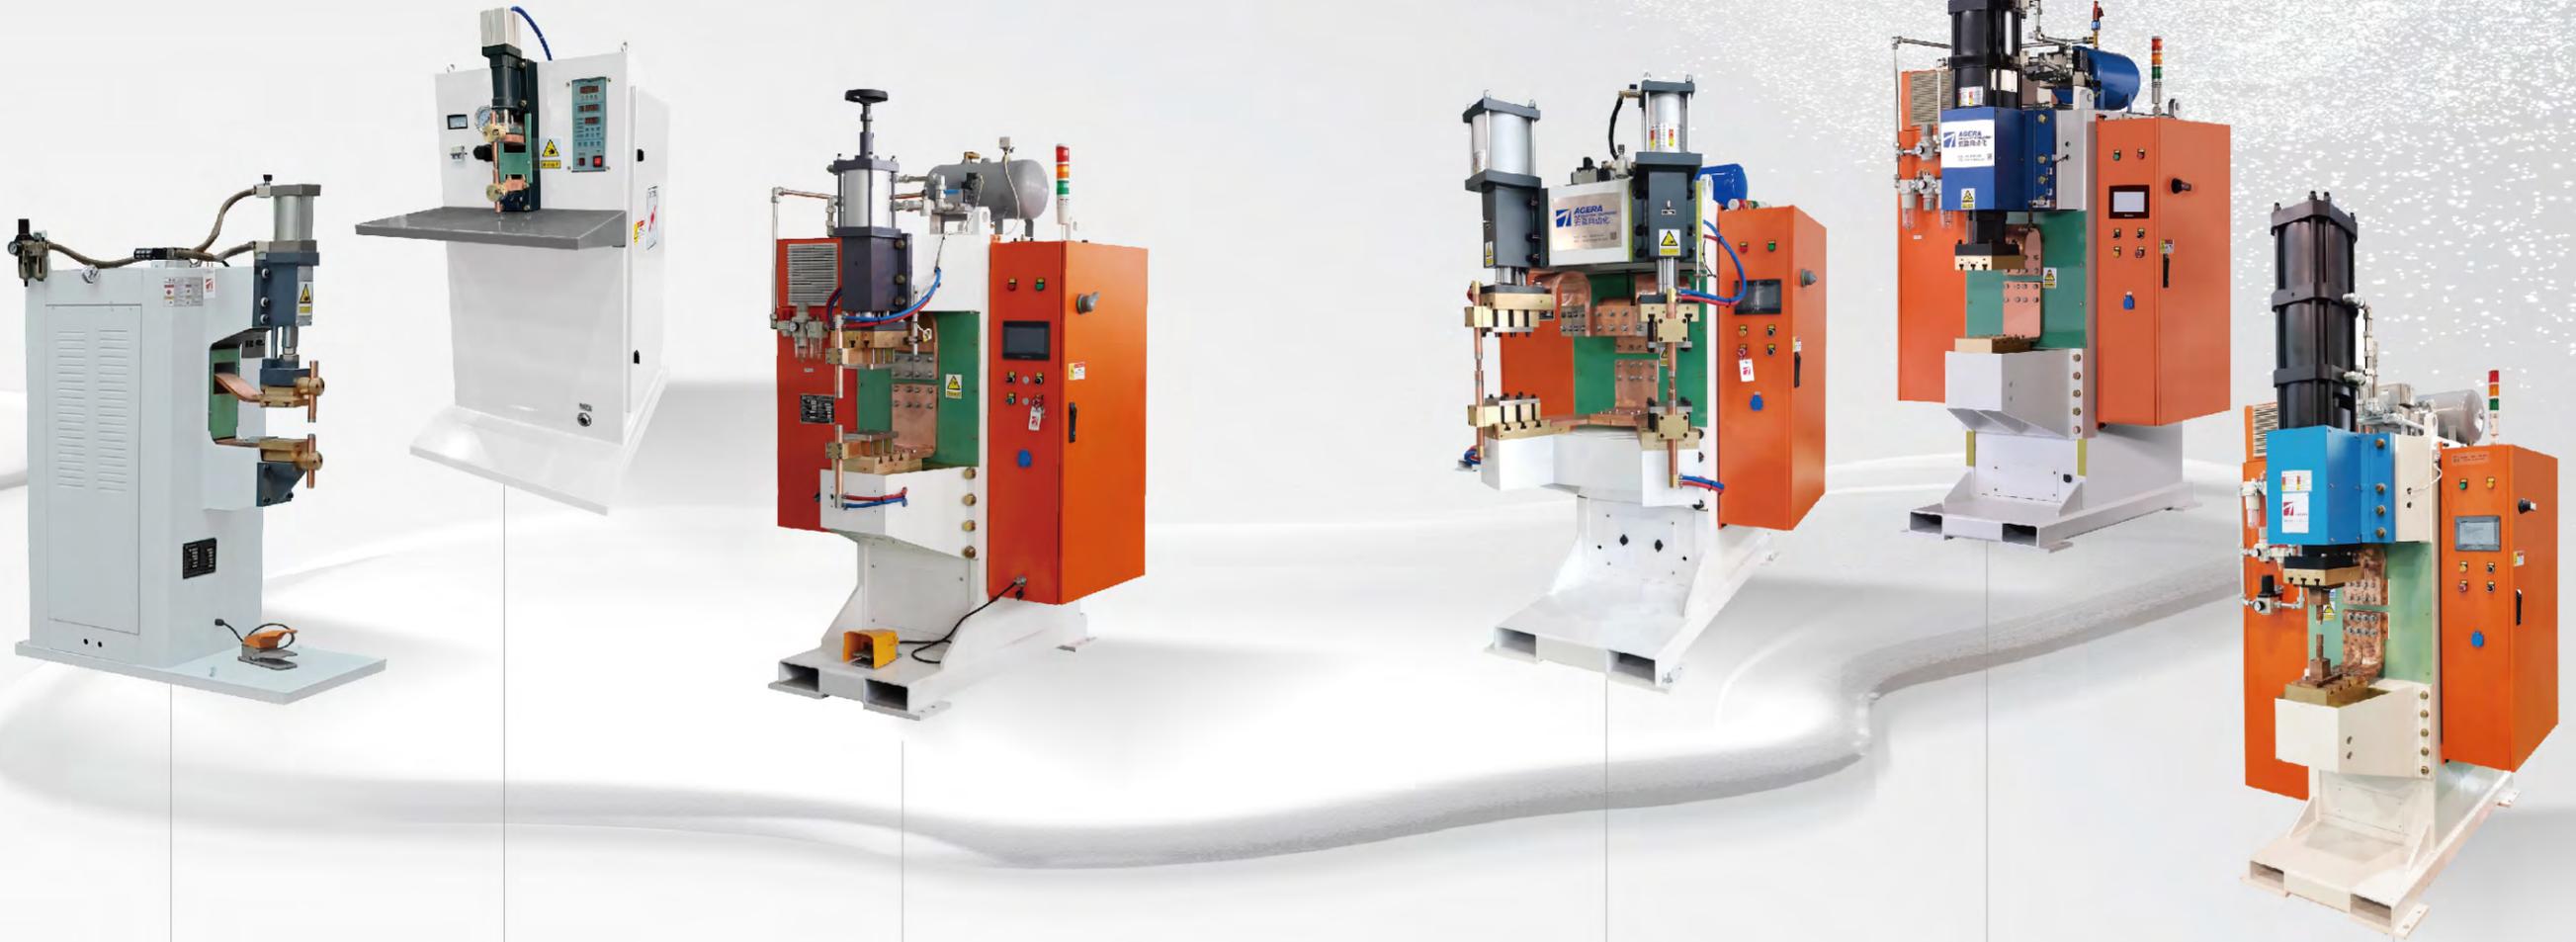

产品特点

- 1 三相供电,电网均衡,对电网冲击小 / 3-phase power supply, balanced power grid with less impact**
功率因数高达0.7-0.9(工频0.4),大大降低了无功损耗。
The power factor is as high as 0.7-0.9 (power frequency 0.4), which greatly reduces the reactive power loss.
- 2 焊接控制精度显著提高 / Greatly improved welding control accuracy**
逆变频率达到1000Hz以上,焊接电流控制能力、控制精度相对于交流焊机提高了20倍。
The inverter frequency reaches more than 1000Hz, and the welding current control and control accuracy are 20 times higher than that of AC welding machine.
- 3 焊接质量大幅度飞跃 / Great leap in welding quality**
电流波形平直,熔核尺寸稳定范围大,飞溅少,焊点表面质量好。
The current waveform is straight, the nugget size is stable with a wide range and fewer splashes, and the surface quality of the solder joint is good.
- 4 节省基础投资、节能 / Saving for basis investment and energy**
电网功率需求低,仅为交流电阻焊机的2/3;焊接时间短,电极寿命长。
The power demand of power grid is low, which is only 2/3 of that of AC current resistance welding machine; the welding time is reduced and the electrode life is extended.
- 5 人机交互界面、操作简便 / HMI for easy operation**
可存储多套焊接规范一键调用,焊接电流、时间实时显示;焊接压力、冷水流量、焊接电流监控报警功能。
It can store multiple sets of welding specifications with one-key call, real-time display of welding current and time, as well as welding pressure, cooling water flowrate and welding current monitoring alarm functions.
- 6 丰富的扩展功能 / Abundant extended functions**
可编程输出,更好地与PLC、机器人等适配。
Programmable output for better adaption to PLC, robot, etc.

| 最大短路电流 Maximum Short-circuit Current | KA | 14 | 20 | 28 | 40 | 80 | 100 | 140 | 170 | 180 |
| 额定负载持续率 Rated loadDuration | % | 50 | 50 | 50 | 50 | 50 | 50 | 50 | 50 | 50 |
| 焊接气缸规格 Welding Cylinder Specification | φ*L | 50*50 | 80*50 | 125*80 | 125*80 | 160*100 | 200*150 | 250*150 | 2*250*150 | 2*250*150 |
| 最大工作压力 (0.5Mp) Maximum Working Pressure (0.5Mp) | N | 980 | 2500 | 6000 | 6000 | 10000 | 15000 | 24000 | 47000 | 47000 |
| 冷却水流量 Cooling Water Flowrate | L/Min | - | - | - | 8 | 8 | 10 | 10 | 10 | 10 |

PRODUCT FEATURES

产品特点

- 1 电网容量需求低, 对电网冲击小 / Low demand and less impact on power grille**
同样的焊接能力下, 储能点焊机只需要交流点焊机的1/5以下的容量, 中频焊机1/3左右的容量。
Under the same welding capacity, the stored-energy spot welder only needs less than 1/5 capacity as that of an AC spot welder and about 1/3 capacity as that of a medium-frequency welder.
- 2 硬规范焊接特性 / Good welding characteristics for thin slabs**
大电流、短时间、大压力, 尤其适合凸焊工艺; 多点凸焊、螺母凸焊、环凸焊等, 满足热成型钢的点焊、凸焊工艺质量要求。
High current, short time and high pressure, especially suitable for projection welding process: multi-point projection welding, nut projection welding, and circumferential projection welding, etc., all of which meet the quality requirements of spot welding and projection welding process of hot-formed steel.
- 3 能量波动极小, 焊接质量稳定 / Small energy fluctuation and stable welding quality**
焊接热量波动在1%内, 焊接品质稳定可靠。
The welding heat fluctuates within 1%, and the welding quality is stable and reliable.
- 4 放电时间极短, 热影响小, 焊点美观 / Very short discharging, small heat effect and good appearance of solder point**
焊接放电时间在10ms左右, 工件表面不变色, 熔核区域外变形小。
The discharging time is about 10ms, the workpiece surface does not change color, and the deformation outside the nugget area is small.
- 5 冷却要求低, 节能 / Low cooling requirement and energy saving**
主变压器不需要通水冷却, 不会因为连续长时间焊接而过热, 可以节省大量的冷却水资源。
The main transformer does not need water cooling and will not overheat due to continuous welding for a long time, which can save a lot of cooling water resources.
- 6 不受电网波动影响, 保证输出电流稳定 / No effect owing to power grid fluctuation for stable output current**
控制逻辑保证电容只有在充电到设定值后才允许放电, 从而保证了焊接电流的恒定。
The control logic ensures that the capacitor is allowed to discharge only after charging to the set value for constant welding current.
- 7 超大焊接电流、超强焊接能力 / Super-high welding current and powerful welding ability**
可最大至200KJ储能量, 可满足超大焊接尺寸零件的焊接。
It can store energy up to 200KJ, which can meet the welding of parts of very large sizes.
- 8 丰富的扩展功能 / Abundant extended functions**
可编程输出, 更好地与PLC、机器人等适配。
Programmable output for better adaption to PLC, robot, etc.

BUTT WELDING MACHINE

电阻对焊机

SCOPE OF APPLICATION

应用范围

- 铜棒、铝棒、铜铝绞线等有色金属件端部对接;
End butt-welding for non-ferrous metal parts, e.g., copper rod, aluminum rod and copper aluminum stranded wire;
- 精细、精密零件的对接;
Butt jointing for fine and precision parts;
- 普通碳钢空心管件对焊;
Butt welding for ordinary carbon steel hollow pipe fittings;
- 碳钢实心棒材对焊;
Butt welding for carbon steel solid bar;

PRODUCT FEATURES

产品特点

- 1 可对焊精细零件。
Fine parts that can be butt-welded.
- 2 焊接头表面光滑、毛刺小（配刮刀机构）。
The surface of the welded joint is smooth with small burr (equipped with a scraper mechanism).
- 3 焊接过程无弧光、飞溅，环境友好。
The welding process is environment-friendly without arc or splash.
- 4 可实现自动刮渣、回火功能。
It can realize the functions of automatic slag removal and tempering.
- 5 焊接质量稳定，强度高。
The welding quality is stable and the strength is high.

SCOPE OF APPLICATION

应用范围

- 超大截面金属零件的对接，最大可达20000mm²及以上；
Butt joint for metal parts with very large section, up to 20000mm² and above;
- 碳钢、不锈钢、铝合金等的对接；
Butt jointing for carbon steel, stainless steel and aluminum alloy;
- 异种金属零件的对接，如铜铝排对接；
Butt jointing for dissimilar metal parts, e.g., butt jointing of copper-aluminum bar;
- 特种钢材的对接，如中高碳钢、高强度钢；
Butt jointing for special steels, e.g., medium and high carbon steel and high-strength steel;
- 适应空心管材、实心棒材、型材、板材及异形截面的对焊。
Suitable for butt welding of hollow pipes, solid bars, profiles, plates and special-shaped sections.

PRODUCT FEATURES

产品特点

- 1 工艺参数丰富，适合各种截面零件的对接。
Rich process parameters, suitable for butt jointing of various cross-section parts.
- 2 适应大截面零件的对接。
It is suitable for butt joint of large section parts.
- 3 多元化控制模式，应对不同焊接要求。
Diversified control mode to meet different welding requirements.
- 4 焊口质量达到或接近母材。
The quality of welded junction reaches or approaches that of base metal.
- 5 焊接质量稳定，强度高。
Stable welding quality and high strength.

DIFFUSION WELDING

MACHINE

扩散焊机

SCOPE OF APPLICATION

应用范围

- 多层铜箔、铝箔焊接;
Multi-layer copper foil and aluminum foil welding;
- 铜箔、铝箔和镍片的焊接;
Welding of copper foil, aluminum foil and nickel sheet;
- 新能源汽车电池母排焊接;
New energy vehicle battery busbar welding;
- 新能源汽车充电桩导电铜排焊接;
Welding of conductive copper bars for new energy vehicle charging piles;
- 储能行业导电铜排焊接;
Welding of conductive copper bars in the energy storage industry;
- 其它铜、铝连接的场合。
Other copper and aluminum connection occasions.

PRODUCT FEATURES

产品特点

- 1 零件整体均匀加热，引起的应力变形小，容易保证焊件的尺寸精度；
The whole part is heated evenly, causing little stress and deformation, and it is easy to ensure the dimensional accuracy of the product;
- 2 接头质量好，其显微组织和性能与母材接近或相同，无熔化焊缺陷，也不存在过热组织和热影响区。
The quality of the joint is good, its microstructure and properties are close to or the same as the base metal, there are no melting welding defects, and there are no overheated structures and heat-affected zones.
- 3 可焊接大截面的接头；
Can weld large-section joints;
- 4 可焊接结构复杂以及厚薄相差较大的工件；
It can weld workpieces with complex structures and large differences in thickness;
- 5 可对多接头零件同时实施焊接
Multi-joint parts can be welded simultaneously
- 6 可实现金属和非金属材料、异种材料间的连接；
Can realize the connection between metal and non-metal materials and dissimilar materials;

RESISTANCE SEAM WELDING MACHINE
电阻缝焊机

SCOPE OF APPLICATION

应用范围

- 广泛应用于要求密封性的容器制造上，如汽车油箱、油桶、减震器、水塔、水槽、油漆桶、散热器等
Widely used in the manufacture of containers that require sealing, such as automobile fuel tanks, oil drums, shock absorbers, water towers, sinks, paint buckets, radiators, etc.;
- 非密封性的板金件，如汽车防撞钢梁、门窗边条、钢带搭接等。
Non-sealing sheet metal parts, such as automobile anti-collision steel beams, door and window edge strips, steel strip overlaps, etc.

PRODUCT FEATURES

产品特点

- 1 镶嵌式银瓦导电，保障连续大电流的可靠传导；
The inlaid silver tile conducts electricity to ensure reliable conduction of continuous large current;
- 2 旋转速度无级可调，满足不同规格零件的焊接；
The rotation speed is infinitely adjustable to meet the welding of parts of different specifications;
- 3 高负载持续率变压器，满足连续焊接的稳定与持久；
High load duration transformer to ensure the stability and durability of continuous welding;
- 4 内冷/外冷式的焊轮结构，降低焊轮和零件的发热量与热影响；
The internal cooling/external cooling welding wheel structure reduces the heat generation and thermal impact of the welding wheel and parts;
- 5 可自动修磨焊轮
Can automatically grind the welding wheel;
- 6 单/双轮驱动均可。
Single/double wheel drive is available.

INTEGRATED HANGING

SPOT WELDER

一体式悬挂点焊机

SCOPE OF APPLICATION

应用范围

- 碳钢板、镀锌板、不锈钢板、铝板的点焊连接；
Spot welding for carbon steel plate, galvanized plate, stainless steel plate and aluminum plate;
- 汽车车身件、零部件点焊；
Spot welding for automobile body parts and components;
- 机箱、机柜等钣金件点焊；
Spot welding for chassis, cabinet and other sheet metal parts;
- 零件不便于移动的焊接场合。
Applications where parts are not easy to move.

PRODUCT FEATURES

产品特点

- 1 焊接变压器和电极臂连接在一起，结构紧凑；
The welding transformer and electrode arm are connected together in a compact structure;
- 2 相比分体式焊钳节省能源约60%；
It saves about 60% energy compared with split welding tongs;
- 3 独特的悬挂系统设计，使之在XYZ方向都能旋转自如，操作方便；
Unique suspension system design makes it rotate freely in XYZ direction and easy to operate;
- 4 具有焊接和辅助双行程，焊接效率高；
Welding and auxiliary double stroke for higher welding efficiency;
- 5 水电气均采用组件模块设计，整体性好，可靠性高。
Modular design is used for water and electrical assembles and components for good integrity and high reliability.

PRODUCT FEATURES

产品特点

- 1 结构简洁耐用 / Simple and durable structure**
机体按抗冲击、抗振性和高刚性设计,经机械精细加工,满足各构件的精确安装和负载强度。
The machine body is designed for impact resistance, vibration resistance and high rigidity. After fine machining, it can meet the accurate installation and load strength of each component.
- 2 加压平稳快速 / Stable and fast pressurization**
铝合金缸筒、低阻尼密封圈、轻摩擦环组合气缸,响应速度更快和极灵敏的随动性能,获得极高的打点速度。
Aluminum alloy cylinder barrel, low damping seal ring and light-friction ring combined cylinder have faster response speed and extremely sensitive follow-up performance for extremely high dotting speed.
- 3 绝缘安全可靠 / Safe and reliable insulation**
二次侧回路采用加压气缸缸座与上机臂绝缘方式,便于下座直接安装焊接工装,不须担心造成短路,简单实用。
The secondary side circuit adopts the insulation mode between the pressurized cylinder base and the upper arm, which is convenient for the direct installation of welding tooling on the lower base without short circuit. It is so simple and practical.
- 4 高效耐久 / High efficiency and durability**
主焊接回路采用全内水冷的阻焊变压器和水冷大功率可控硅元件,输出电力强劲、寿命持久。
The full internal water-cooled resistance welding transformer and water-cooled high-power thyristor element are used on the main welding circuit for powerful output power and long service life.
- 5 控制精准稳定 / Accurate and stable control**
可与多种数字控制器或微电脑控制器灵活配置,以满足各种高、中、低、焊接需求。
It can be flexibly configured with a variety of digital controllers or microcomputer controllers to meet various high, medium and low welding requirements.
- 6 冷却方式节约实用 / Economical and practical cooling mode**
冷却水回路设有各自独立流量显示器和流量调节,总进水口装有水过滤器,防止水路堵塞。
The cooling water circuit is equipped with independent flow display and flow regulation, the main water inlet is equipped with a water filter to prevent blockage in the water lines.
- 7 操作简单 / Simple operation**
设备操控简单,人机工程设计、调整、注油、维护、保养轻松完成。
The operation of the equipment is simple with ergonomic design, the adjustment, lubricating, maintenance and repair can be easily completed.

Automotive 20mm² Wire Harness Square Forming Machine

75mm² 汽车线束压方成型机
Automotive 75mm² Wire Harness Square Forming Machine

50mm² 汽车线束压方成型机
Automotive 50mm² Wire Harness Square Forming Machine

90mm² 汽车线束压方成型焊接流水线
Automotive 90mm² Wire Harness Square Forming Welding Line

50mm² 铜编织线自动压方剪切一体机
Automatic Squaring And Shearing Machine For 50mm² Copper Braided Wire

90mm² 铜编织线自动压方剪切一体机
Automatic Squaring And Shearing Machine For 90mm² Copper Braided Wire

AUTO PARTS
INDUSTRY
汽车零部件行业

汽车电器自动点焊机
Automotive Electrical Automatic Spot Welding Machine

汽车阀体引脚自动点焊机
Automobile Valve Body Pin Automatic Spot Welding Machine

汽车电机引线端子夹指焊机
Automotive Motor Lead Terminal Clamp Finger Welding Machine

电机驱动器IGBT引脚自动点焊机
Motor Driver IGBT Pin Automatic Spot Welding Machine

汽车冷凝器自动点焊机
Automobile Condenser Automatic Spot Welding Machine

汽车滤波器自动夹指焊接专机
Automatic Finger-Clip Welding Machine For Automotive Filters

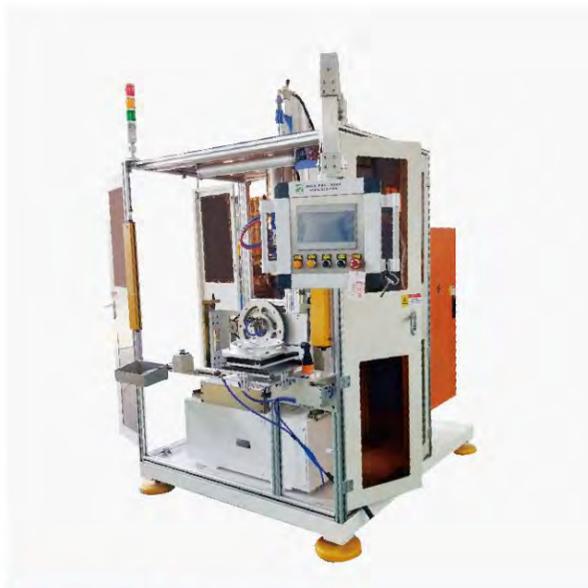

新能源汽车ECU端子自动点焊机
Electric Vehicle Ecu Terminal Automatic Spot Welding Machine

AUTO PARTS
INDUSTRY
汽车零部件行业

汽车抱箍自动点焊机
Automobile Hoop Automatic Spot Welding Machine

抱箍双头点焊机
Hoop Double-Head Spot Welding Machine

抱箍自动点焊机
Automatic Spot Welder For Stirrup

双工位抱箍自动点焊机 (带辅助工位)
Double-Station Hoop Automatic Spot Welding Machine (With Auxiliary Station)

单工位卡箍点焊机
Single Station Clamp Spot Welding Machine

电池包不锈钢抱箍凸焊专机
Projection Welding Machine For Stainless Steel Hoops Of Battery Packs

双工位抱箍自动点焊机
Double-Station Hoop Automatic Spot Welding Machine

AUTO PARTS
INDUSTRY
汽车零部件行业

汽车座椅自动点焊机
Car Seat Automatic Spot Welding Machine

30000J座椅框架储能凸焊机
30000J Stored-Energy Welder For Seat Frame

汽车座椅侧板垫片凸焊专机
Customized Projection Welding Machine For Car Seat Side Panel Gaskets

汽车座椅滑轨加强片自动凸焊机
Projection Welding Machine For Car Seat Slide Rail Reinforcement

汽车座椅滑轨双头凸焊机
Car Seat Slide Rail Double-Head Projection Welding Machine

汽车座椅定位销全自动凸焊工作站
Fully Automatic Projection Welding Workstation For Car Seat Positioning Pins

汽车座椅滑轨垫块自动凸焊工作站
Automatic Projection Welding Workstation For Car Seat Slide Rail Pads

汽车座椅滑轨销轴双头点焊机
Car Seat Slide Rail Pin Double-Head Spot Welding Machine

座椅支架自动点焊工作站
Spot Welding Station For Seat Support
